Colyn Woods (right) inspired everyone with his passion for life and his compassion for others.

Colyn suffered from intestinal dysmotility and Mitochondrial Disease and required intravenous feeding since the age of 2.

He ate little or nothing by mouth.

This tournament is a tribute to the Oley ambassador who left us all with a heavy heart on January 14, 2010.

All proceeds benefit the Oley Foundation, based at Albany Medical Center. Established in 1983 to address the needs of those who sustain themselves on intravenous and/or tube feedings. Unable to absorb nutrition via the food they eat Oley members must rely on hi tech equipment and the expertise of medical professionals who can manage them on the micronutrient level, companies who can compound, package and deliver their formula, tubing, pumps, medications, etc. Over 10,000 people, children and adults, rely on Oley Foundation for information and support.

We never dreamed that our daughter would be born without a throat, along with other serious medical issues. Feeding her orally was not an option but through her feeding tube she receives fluids, fruits and vegetables. The Oley Foundation has been a wonderful and never ending support for our family.
